

A Guide to Cisco 1Source

Meet Cisco 1Source, Tech Data's self-service portal that provides you with an end-to-end view of all your Cisco transactions within a single page.

Fast

Precise

Simple

1Source integrates with the Cisco CCW Portal, allowing you to quickly and easily convert estimates and deals into immediate self-served Tech Data quotes.

From there, 1Source enables you stay on top of your Cisco sales by giving you full visibility of your orders all the way through to delivery, in real time, and with simplified interaction.

Key Features

- View Cisco stock levels
- One-click quotations
- Live pricing
- View and track Cisco orders end-to-end
- 24/7 quoting
- Cisco discounts
- Renewals visibility
- Live dollar conversion

Cisco 1Source significantly lowers the time required and complexity of quoting for Cisco deals and monitoring them through to completion.

With live pricing and instant quoting, you no longer have to wait for pre-agreed SLA periods, enabling you to get on with securing more deals, sooner.

Viewing and Exporting

To view specific items, simply click on the relevant tab on your 1Source dashboard, and you'll be taken to the summary page from which you can set your choice of filters in order to refine your results.

Should you wish to export your estimates and self-quotes in order to share them, there is also the option to do so next to each item.

How to get started with 1Source

1. Login to InTouch using your existing credentials
2. Select '1Source Cisco' from the 'Brands and Browse' dropdown menu
3. This will take you to your Cisco 1Source Dashboard

It's that simple. Once on your 1Source Dashboard, you'll be able to view order statuses, deal trackers, deal estimates, quotes, and more.
